

	Page.
Fig. 115. The huts when still inhabited	179.
» 116. Vertical section of the shore region	179.
» 117. Vertical section of old river-bed	180.
» 118. The hut on the northern shore of the lake	181.
» 119. The bedding of the clay	186.
» 120. The same	195.
» 121. Vertical section of branch A	196.
» 122. Vertical section of branch B	196.
» 123. Vertical section of branch C, March 31	197.
» 124. Vertical section of branch E, March 31	197.
» 125. Piers of kamisch at the mouth of arm C	198.
» 126. View towards S. 70° E. across the Kara-buran, as it was on 19 April 1896; between the bank to the left and the narrow kamisch-pier to the right is the river Tarim; beyond the pier is the lake	199.
» 127. Formation of pier-like ramparts where the Tarim goes through the Kara- buran	200.
» 128. Result of ramparts in the Kara-koschun	201.
» 129. The volume of water in the Tarim during the course of the year	206.
» 130. Distribution of land and water at Kona-abdal	212.
» 131. Rampart between the Örtäng-köl and the Tarim	212.
» 132. Formation of ramparts beside the Tarim	213.
» 133. Vertical section of river and lakes	214.
» 134. Basins of the Kara-koschun	215.
» 135. View of Altmisch-bulak, the oasis at the foot of the Kuruk-tagh looking N.E.	222.
» 136. Vertical section of »schor»	223.
» 137. A 15 m. high clay eminence or highest storey of jardang	224.
» 138. The jardang desert	225.
» 139. Showing the highest kind of jardang	226.
» 140. Old bed of the Tarim in the middle of the desert of Lop	227.
» 141. Low jardangs	228.
» 142. Part of a jardang surrounded by sand	229.
» 143. Jardangs in the sand	231.
» 144. Vertical section from S. to N. through the newly discovered oasis	232.
» 145. Jardangs in the northern part of the desert, along the surveyed line	236.
» 146. Jardangs in the central part of the desert upon the line of 1900	237.
» 147. Jardangs	238.
» 148. Levelling the desert on the top of the jardangs	239.
» 149. Some sand in the gullies between the jardangs	240.
» 150. Old river-bed in the desert	241.
» 151. Jardangs in the desert	242.
» 152. Surface of the schor desert	245.
» 153. A stake found in the »schor» desert	249.
» 154. Poplar trunks in the schor desert	250.
» 155. Dunes formed in the shelter of tamarisks	251.
» 156. A solitary jardang in the sand	314.
» 157. The Ilek at Kum-tscheke in 1896	330.
» 158. The Ilek at Ördek-jaghutsch, that is before entering the Avullu-köl	332.
» 159. Effect of the Tarim upon the sandy desert	336.
» 160. The Ilek at Ördek-jaghutsch; sand-dunes descending abruptly into the river on its eastern bank	337.
» 161. Another view from the same place, showing an eddy of the river entering the sand on the eastern bank	338.
