

masit occurs in the Ormuṛī language spoken in Afghanistan. Of course, the form *bagšis* with *g* (No. 145) does not occur in India.¹

173. *Argon* occurs in Kāshmirī in the same sense.

¹ The final *g* (pronounced *k*) is a purely graphic, not a phonetic phenomenon; Tibetan writing has no final *k*.—[B.L.]
