 Olive, 415-419; absent in Bactria, 223; in India, 239; in Pahlavi literature, 193.—No other text regarding the olive is known than that of the *Yu yan tsa tsu*. Li Ši-čen (*Pen ts'ao kañ mu*, Ch. 31, p. 10b) cites this single text only, and is at a loss as to what to make of this plant. He has added this note as an appendix to the article on *mo-č'u* (\*mwa-džu), saying that the *ts'i-tun* fruit is of the same kind. G. Ferrand (*Journal asiatique*, 1916, II, p. 523) has identified the term *mo-č'ü* with Javanese *maja*, the fruit of the *Aegle marmelos*.
