The adjoining part is the section above.

THE TS'UNG LING
and
THE LOP-NOR-REGION
according to the
Hsi-yü-shuei-tao-chi

edited by **ALBERT HERRMANN**.

Natural scale reduced to 2/3 of the Original =
ca. 1:1,500,000.

The Chief-map is composed of the
single sheets of the Original and,
with south above, divided in squares
of li distance (50 li = ca. 27.8 km).

Explanation:

- high roads
- towns, enclosed with a wall
- smaller towns or forts (chin. tai).
- Transcriptions of localities, which cannot be identified on European maps, are characterised with an asterisk.
