

- Dacitic lavas V: 189f.  
 Dalai-Lama I: 229, 243, 247f., 258, III: 41, 69, 71, 157, VII: 54, III, IX<sub>4</sub>: 16, 18—23.  
 — Gen. VI<sub>3</sub>: 114f.  
 damak, i. e. furze II: 42.  
 dam-giri, i. e. mountain-sickness VII: 18.  
 Danien-sandstone V: 202.  
 Delphinium sp. VI<sub>3</sub>: 79ff., 99.  
 Deltas II: 152f., 155, 253, 260, 309, III: 283, 295, IV: 56, VI<sub>3</sub>: 13, VIII: 140, IX: 27, 48, 60f.  
 Denticula Gen. VI<sub>3</sub>: 111, 144.  
 Denudation: effects II: 177, VII: 506, 588; in Himalaya and Tibet IV: 89, VII: 502, 561, 587f.; limit, Penck's upper, IV: 262, VII: 459, 506.  
 Depressions in Tibet III: 251, IV: 57, 73f., 123, 178, V: 211, VII: 499f., 503, 530f., 535—548, 564.  
 Depth: of lakes, generally II: 163, III: 292; Amchok-tso III: 295; Kara-koshun VI<sub>3</sub>: 17; La. Lighten IV: 47f.; Manasarovar II: 79, 154, 156f., 163ff., VII: 519; Ngangtse-tso III: 292, 345, IV: 169—173, 175, 423; Orin-nor VII: 512; Panggong-tso II: 163, VII: 509, 521; Pul-tso IV: 55f.; Rakas-tal II: 167f.; Shuru-tso III: 292; Terinam-tso IV: 395; Tso-morari II: 202; Yeshil-köl IV: 51f., VII: 409f.  
 — of rivs., s. Hydrography, Size, Volume.  
 Deserts: marked in Chinese maps VIII: 94, 281.  
 — in Persia II: 175; Tibet and Eastern Turkistan II: 61, III: 13, 38, 146, 337, 339, IV: 195, 273f., 276, VI<sub>3</sub>: 17, VII: 506, 551f.  
 —, s. also Barren rgs.  
 Desiccation: postglacial in Central Asia II: 25, 36, 169, 173—176, 200, VII: 248f., 505ff., 523ff., 539; Tibet II: 169, III: 218, IV: 16, VII: 293ff., 324, 458, 505f., 529f., 532, 587.  
 —, s. also Beach-lines, Climatic changes.  
 Desmidiaceae, Fam. VI<sub>3</sub>: 170, 186ff., 193.  
 Deva's I: 5, 9.  
 Devonian IX: 169.  
 Diabase II: 153, 166, 263f., 321, III: 310, 351, 362, V: 30, 67, 80, 101, 103, 121, 136, 162, 167, 170, 181, 188f., 200f., 204; -porphyrite III: 249, 269, 273, 328, V: 55, 112; s. also Hunne-d.  
 Dialects: Chinese VIII: 132, 315f., 329f., 410ff., IX<sub>4</sub>: 5ff.; Tibetan IX<sub>4</sub>: 7; East-Turkish VIII: 410.  
 Dialects, s. also Language.  
 Diatoms VI<sub>3</sub>: 107—152, VII: 512.  
 Dicerocardium VII: 344.  
 Dicotyledones: Choripetalae VI<sub>3</sub>: 51—89; Sympetalae VI<sub>3</sub>: 28—51.  
 Dictyocephalus V: 56.  
 Dictyomitra V: 103.  
 Diluvial deposits at Guge La. II: 95.  
 Dimensions, s. Hydrography, Size, Volume.  
 Diopside IX: 146, 166.  
 Diorite V: 30, 75, 152, 160, 177, 183, 196, 201, 209f., VII: 431.  
 — -porphyrite V: 48f., 75, 107, 123, 139, 190, 196.  
 Diploneis Gen. VI<sub>3</sub>: 110f., 113, 125.  
 Dipyr rock, schistose VII: 431.  
 Discoideae V: 80, VI<sub>3</sub>: 116f.  
 Distances: estimated by Chinese VIII: 93; method of measurement II: 28, IV: 203; calculated by Pundits II: 102; list of, on Hedin's routes 1906—1908 IV: 407—420, VI<sub>1</sub>: 10—124.  
 —, s. also Miles.  
 Djabyh(o)uya, title of the Karluk kings I: 44.  
 Dogs I: 136, 138, IV: 127, 242, VIII: 118, 140, IX: 47.  
 Dolomite VII: 432f., 444, 475f.  
 Dominicans, s. Missionaries.  
 Dongyak, i. e. wild yak II: 241.  
 Donkeys II: 294, IX: 73f., 78.  
 Draba fladnizensis VI<sub>3</sub>: 76, 100.  
 Dracocephalum sp. VI<sub>3</sub>: 45f.  
 Drainage area: of Ganges II: 75, 319—322; Indus II: 38, 75, 96, 100, 105, 112, 126f., 211ff., 244, 248, III: 48, 179, 337, IV: 6, 190, 364, 381, VII: 462, 476f., 484, 490, 508f.; of rivs. in Eastern Pamir IX: 49, 52; Satlej I: 103, 105, 279, II: 38, 75, 94, 96, 103ff., 150ff., 185, 211ff., 237, 242, 264, 266, IV: 182, 188f., 304, 306—311, 318ff., 375, 381; Tsangpo I: 105, 279, II: 103f., 126f., 149, 235, 237, 242, 244, 248, 264, 266, 284ff., 319—322, III: 151, IV: 364, VII: 533f.  
 —, s. also Lakes, Tributaries, Water-shed.  
 — basin, definition by Burrard II: 134.  
 Druppulidae V: 78.  
 Dsongs II: 305, III: 259, IV: 321, s. also Barriers, Bourgs.  
 Ducks III: 282, 285, 292, 304, 322, 329, 365, IV: 56, 193, 198, IX: 37.  
 Dunes: in Tibet II: 325, IV: 273—277, VI<sub>3</sub>: 19; rg. of Manasarovar, Upper Indus II: 150, 155, 168, IV: 5, 199; Upper Tsangpo II: 259, 288, 294f., 298ff., 305, 309, 317, 323—327, 330, III: 266ff., 272, IV: 274.  
 Dunes: in Eastern Turkistan IV: 276, VI<sub>3</sub>: 17, VII: 551f., VIII: 336, 419, 429.  
 Dune-vegetation at Tsangpo II: 326.  
 Dung for fuel IV: 95, 164, 169, 235.  
 Dust, -fog, -storm IV: 49, 158, 267f., 270, IX: 5, 9, s. also Storms.  
 Dwellings in grottoes II: 99, 320, VIII: 37.  
 Eagles III: 285, IV: 76, 82, 86, 149, IX: 37.  
 Earth, floating IV: 19, s. also Mud-flow.  
 — -movements, differential VII: 501—510.  
 — -pyramids II: 151, 153, 294.  
 Earthquake: morphological effects II: 36, 206; Sarikol IX: 43ff., 47, 70, 75, 77, 82; Upper Shayok rg., 1840, VII: 297.  
 Echinoderms V: 91, 142, IX: 167, 176ff.  
 Effusive rocks V: 188, 190, 194, 196, 205.  
 ekdan, i. e. snow, winter VII: 206.  
 Elacagnaceae VI<sub>3</sub>: 54, IX: 102.  
 Elephants' tusks, holy IV: 373, 379.  
 Encrinites VII: 278.  
 End-moraines II: 171f., V: 86, VII: 234, 236, 441f., 444f., 470, IX: 19, 30, s. also Moraines.  
 Eocene period, strata V: 24, 160, 167, 178, 185—188, 190, 196f., 203ff., 209, VII: 287, 333, 502, 544f.  
 Eoradiolites V: 145ff.  
 Ephedraceae VI<sub>3</sub>: 98f.  
 Epidote V: 11, 13, 15, 29f., 41, 47, 52, 65, 105, 113, 132, 135f., 138f., 151, 165f., VII: 444, IX: 134, 143ff., 147f., 150f., 161, 166.  
 — -chlorite IX: 153.  
 — -sericite IX: 156, 165.  
 Epi-orthoclase-gneiss V: 92ff., 187.  
 Epithemia Gen. VI<sub>3</sub>: 111, 143f.  
 Erosion: hydrographical, morphological effects II: 95, 99, III: 268, IV: 184f., 187, V: 186, VII: 525—528; in Himalaya and Trans-himalaya V: 159, 189, 196, 209f., VII: 502—505; Tibetan plt. VII: 501f.; Satlej II: 95, 137, VII: 546; Tage-tsangpo II: 150; (Kubi-) Tsangpo II: 326, III: 248, V: 196, VII: 533, 545.  
 —, s. also Glacial e., Terraces, Wind e.  
 — vals. of Indus VII: 464; of Tsangpo VII: 503.  
 Erosive power of rivs. VII: 504, 529.  
 Erratic blocks II: 259, 265, VI<sub>3</sub>: 13f., IX: 50, 59, 61.  
 Eruptive formations of Central Asia II: 87, V: 6f., 42, 61, 65, 68, 91, 148—170, 203, VII: 502f., s. also Igneous rocks.
