

- 32: 108-109. Two flat lead pieces, one of which has two deep grooves.
- 32: 110. Iron hammer (?) with rectangular hole near centre. 77×21 mm. Pl. 29: 20.
- 32: 111. Twenty-four small iron fragm. Some of them nails.
- 32: 112. Semicircular ornament of yellowish-brown glass. The straight part is grooved. 12×8×6 mm. Pl. 28: 5.
- 32: 113. Barrel-shaped bead of white, striated chalcedony with crystals at one end. L. 14 mm. Pl. 28: 12.
- 32: 114. Fragm. of light-blue glass bead with three longitudinal grooves. Pl. 28: 13.
- 32: 115. Oblong yellow glass bead with three irregular ridges. L. 12 mm. Pl. 28: 14.
- 32: 116-117. Two double-beads of honey-coloured glass, once gilt. L. 10 mm. Pl. 28: 15—16.
- 32: 118. Double-bead of blue glass. L. 6 mm. Pl. 28: 17.
- 32: 119. Polygonal bead of dark-blue glass. L. 5 mm. Pl. 28: 18.
- 32: 120. Small dark-brown glass bead. Diam. 4 mm. Pl. 28: 19.
- 32: 121-124. Four blue glass beads, nearly spherical. Diam. 6—8 mm. Pl. 28: 20-23.
- 32: 125. Flat dark-blue glass bead. Diam. 12 mm. Pl. 28: 24.
- 32: 126-127. Two spherical beads made from the shell of a *Turbo*. Diam. 6 mm. Pl. 28: 25—26.
- 32: 128. Barrel-shaped bead of striated brown and white agate. L. 11 mm. Diam. 8 mm. Pl. 28: 27.
- 32: 129-133. Five fragm. of blue glass beads, two of which are from double-beads. —: 129 from an eye-bead(?) Pl. 28: 7.
- 32: 134. Fragm. of polygonal bead of rock-crystal.
- 32: 135. Half of spherical bead of yellowish-brown glass. Diam. 8 mm.
- 32: 136. Half of spherical bead of carnelian. Diam. 11 mm.
- 32: 137. Fragm. of pierced turquoise.
- 32: 138. Small fragm. of yellowish-white, translucent glass, probably from a vessel, with large, ground ovals.
- 32: 139-140. Two fragm. of light-green and white glass, probably from vessels.
- 32: 141. Small piece of turquoise.
- 32: 142. Fragm. of small shell ring (made from a *Turbo*) with grooved surface. Pl. 28: 8.
- 32: 143. Piece of light-green, semi-translucent jade.
- 32: 144-164. Twenty-one small pebbles of white or blue limestone. Some of them apparently polished by man.
- 32: 165. Spindle whorl of bitumen, one side convex, the other flat and having four small impressions. Diam. 42 mm.
- 32: 166. Spindle whorl of bitumen, the rim damaged? Diam. 29 mm. Th. 14 mm.
- 32: 167-171. Five spindle whorls or sinkers of blue limestone, partly irregular in shape. Diam. 37-15 mm.
- 32: 172. Spindle whorl or sinker, of thick, brown potsherd.
- 32: 173. Spindle whorl of light-grey potsherd, one side flat, the other convex. Diam. 3 cm.
- 32: 174. Potsherd from the bottom of a largish vessel with traces of five steam holes. Reddish-brown, hard earthenware with darker surface.
- 32: 175. Whetstone of slate with suspension hole. 86×23 mm. Pl. 29: 19.
- 32: 176-177. Two fragm. of whetstones with suspension hole.
- 32: 178. Small flake of brown jasper. Neolithic?
- 32: 179. Some small pieces of sulphur or sulphur-ore.
- 32: 180. Some small pieces of slag.
