

- K. 13341:59. Small pyramidal pendant of potstone. 16×7×6 mm. Pl. 33:41.
- K. 13341:60. Small jade stone, light-green and brownish-red. At the thinnest end a V-shaped hole. Pendant. L. 19 mm. Pl. 34:60.
- K. 13341:61. Oblong jade stone of a beautiful reddish-brown and greenish colour. At the thinner end a V-shaped hole. Pendant. L. 42 mm. Pl. 34:54.
- K. 13341:62-63. Two pendants of white jade, nearly spherical with a semi-circular loop. L. 21 mm. —:62 Pl. 34:52.
- K. 13341:64. Pendant of light-green jade, the same type as —:62-63, but of inferior workmanship. L. 14 mm. Pl. 34:53.
- K. 13341:65. Spherical bead of translucent chalcidony. Diam. 7 mm.
- K. 13341:66. Barrel-shaped bead of brown and white opal. A hole is drilled from both ends, but obliquely, so that they do not meet properly. L. 14 mm. Diam. 8 mm. Pl. 34:42.
- K. 13341:67. Oblong, octagonal bead of carnelian. L. 20 mm. Pl. 34:1.
- K. 13341:68. Flat, hexagonal bead of carnelian. Diam. 14 mm. Th. 6 mm. Pl. 34:2.
- K. 13341:69-72. Four spherical beads of carnelian. Diam. 12-7 mm. Pl. 34:3-6.
- K. 13341:73. Small polygonal bead of carnelian. Diam. 7 mm. Pl. 34:7.
- K. 13341:74-76. Three spool-shaped carnelian beads. L. 11-13 mm. Pl. 34:8-10.
- K. 13341:77. Spool-shaped, hexagonal bead of flamy carnelian. L. 18 mm. Pl. 34:11.
- K. 13341:78. Big spherical bead of malachite, one side defective. Diam. 21 mm. Pl. 33:17.
- K. 13341:79. Disc-shaped turquoise bead with eccentric hole. Diam. 11 mm. Th. 3 mm. Pl. 33:21.
- K. 13341:80-81. Two small pierced pieces of malachite.
- K. 13341:82. Rectangular flat, hexagonal bead of greenish-blue glass. L. 13 mm. Pl. 33:20.
- K. 13341:83. Oblong bead of lapis lazuli with rounded edges. L. 13 mm. Pl. 33:27.
- K. 13341:84. Cylindrical bead of lapis lazuli. L. 7 mm. Pl. 33:26.
- K. 13341:85. Small drop-shaped pendant of lapis lazuli. A hole has been begun from each side at the broad part and perpendicular to the suspension hole. L. 11 mm. Pl. 33:24.
- K. 13341:86. Spool-shaped bead of lapis lazuli. L. 14 mm. Pl. 33:25.
- K. 13341:87-89. Three irregular beads of amethyst.
- K. 13341:90. Small coral branch, through which one hole has been drilled. L. 18 mm.
- K. 13341:91-97. Seven small coral beads.
- K. 13341:98. Small coral branch, pink.
- K. 13341:99-100. Two round beads, reddish-brown material. Diam. 14 mm. —:99 Pl. 33:15.
- K. 13341:101. Spool-shaped, flattened bead of honey-coloured glass. L. 12 mm. Pl. 34:15.
- K. 13341:102-103. Two small beads of gilt glass. L. 7 and 5 mm. Pl. 34:16-17.
- K. 13341:104. Polygonal bead of dark-blue glass. 8×9 mm. Pl. 34:18.
- K. 13341:105. Small irregular bead of green glass. Pl. 34:19.
- K. 13341:106-107. Two small double-beads of light-green glass. L. 4 mm. Pl. 34:20-21.
- K. 13341:108. Double-bead of dark-blue glass. L. 7 mm. Pl. 34:22.
- K. 13341:109-115. Seven small glass beads, green, blue and black. Spheroids or biconical. Pl. 34:23-29.
- K. 13341:116. Fragm. of small tube of green glass. Diam. 4 mm. Pl. 34:30.
- K. 13341:117. Small thin bead of green glass. Diam. 7 mm. Pl. 33:34.
- K. 13341:118. Small irregular bead of brown paste (?) with six ridges. Diam. 7 mm. Pl. 33:35.
- K. 13341:119-120. Two spherical beads of white glass. Diam. 6 and 9 mm. Pl. 33:36-37.
- K. 13341:121. Nearly spherical bead of green glass. Diam. 11 mm. Pl. 33:38.
- K. 13341:122. Bead of cobalt-blue paste(?). Diam. 9 mm. Pl. 33:39.
- K. 13341:123. Nearly spherical bead of blue-green glass. Diam. 12 mm. Pl. 33:40.
