

RESULTS

OF A SCIENTIFIC MISSION TO

INDIA AND HIGH ASIA

BY

HERMANN, ADOLPHE, AND ROBERT DE SCHLAGINTWEIT.

ATLAS.

PART II.

CONTENTS:

A. PANORAMAS AND VIEWS.

The numbers in the first column denote the order in which the Plates are issued.
The Index to the final arrangement will be given as soon as the progress of the publication permits.

B. PANORAMIC PROFILES OF THE SNOWY RANGES OF HIGH ASIA.

WITH PLANS OF THE GEOGRAPHICAL POSITIONS AND HYSOMETRICAL DIAGRAMS.

These geographical plates, which have a special reference to Vol. II., Hypsometry, are based on trigonometrical and barometrical measurements, combined with panoramas, the most important of which will follow as pictorial views with the full detail of oil-prints, including the scenery of the foreground and the lateral minor elevations.
