

INDEX OF LOCAL NAMES.

NOTE.—Each local name is followed by the number of the map sheet and section in which it occurs.

In the brief descriptive notes added to the names the following abbreviations have been used: *cultiv.* for cultivated ground (without permanent occupation); *Gl.* for glacier; *habit.* for habitation (isolated abode); *loc.* for locality; *mt.* for mountain; *vill.* for village (without distinction of size; also for hamlet).

Different localities, etc., bearing identical names have been distinguished by the addition in brackets of the tracts, etc., to which they belong, or of the nearest topographical features of importance.

Regarding the record and transliteration of local names, whether Turkī, Irānian, Chinese, etc., the explanations given above, pp. 61 sq., may be consulted. Errors of spelling and misprints have been rectified in Index entries.
